INTERNSHIP

Gigabyte Labs Private Limited

Feb 2025 - May 2025

- Worked as a Software Engineering Intern, focusing on UI/UX design and development tasks.
- Contributed to software enhancements, improving user experience and system functionality.
- Engaged in hands-on development, refining technical and problem-solving skills.

PROJECTS

Project Safety First (React.js, Firebase, Firestore): projectsafetyfirst.vercel.app

- Created a mental health platform focused on women and children, featuring real-time counselor support, gamified mental wellness activities, therapy session booking, emergency assistance, legal rights awareness, and stress assessment tools — built using React.js and Firebase,Firestore for a secure, responsive user experience.

Ninja Run (HTML, Kaboom.js): naruto-jump-game.vercel.app

- Developed an engaging 2D browser game which is inspired from flappy bird , where players control Naruto - The character, dodging obstacles to increase their score and challenge their reflexes.

Edu-Gear (HTML5, CSS3, JavaScript): edu-gear.vercel.app

- Created a student-focused online platform to buy used tech products , with added features for discovering unnoticed verified student discounts and deals.
